WORK EXPERIENCE

Salesforce | San Francisco, CA

Senior Product Designer | 2021-present

Led the end-to-end design strategy for visual IDEs, enabling 52,000+ developers to develop and deploy complex multi-agent networks and integration applications. This work was showcased at Dreamforce by CEO Marc Benioff as the primary driver for developer productivity.

Architecting a platform rebuild across 6 teams. Authored AI Rule/Skill files and managed a token-based master repo to ensure 100% design coherence across AI-driven workflows.

Defined scalable patterns for AI-powered data transformation and flow generation, reducing manual configuration and accelerating workflow creation.

Onboarded and mentored 5 designers, elevating design quality and strengthening team-wide standards through reviews and guidance.

Built and scaled a design system for IDE experiences, increasing consistency and reducing engineering implementation time.
